

# Energy performance certificate (EPC)

Sedalia Heath Lane Willaston NESTON CH64 1TR	Energy rating <b>F</b>	Valid until: 26 September 2032
		Certificate number: 0350-2245-8210-2202-3065

Property type: Detached bungalow

Total floor area: 85 square metres

## Rules on letting this property

### ! You may not be able to let this property

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. You could make changes to [improve this property's energy rating](#).

## Energy rating and score

This property's energy rating is F. It has the potential to be B.

[See how to improve this property's energy efficiency.](#)

Score	Energy rating	Current	Potential
92+	A		
81-91	B		81 B
69-80	C		
55-68	D		
39-54	E		
21-38	F	23 F	
1-20	G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Roof	Pitched, no insulation	Very poor
Roof	Flat, limited insulation (assumed)	Very poor
Window	Mostly double glazing	Average
Main heating	Boiler and radiators, oil	Average
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system, no cylinder thermostat	Poor
Lighting	Low energy lighting in 75% of fixed outlets	Very good
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A

### Primary energy use

The primary energy use for this property per year is 422 kilowatt hours per square metre (kWh/m<sup>2</sup>).

▶ [About primary energy use](#)

## How this affects your energy bills

An average household would need to spend **£1,476 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £925 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2022** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 19,516 kWh per year for heating
- 4,026 kWh per year for hot water

## Impact on the environment

This property's environmental impact rating is G. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year.

### Carbon emissions

<b>An average household produces</b>	6 tonnes of CO2
<b>This property produces</b>	9.5 tonnes of CO2
<b>This property's potential production</b>	2.2 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

# Changes you could make

► [Do I need to follow these steps in order?](#)

---

## Step 1: Increase loft insulation to 270 mm

Typical installation cost £100 - £350

Typical yearly saving £331

Potential rating after completing step 1 **37 F**

---

## Step 2: Flat roof or sloping ceiling insulation

Typical installation cost £850 - £1,500

Typical yearly saving £38

Potential rating after completing steps 1 and 2 **39 E**

---

## Step 3: Internal or external wall insulation

Typical installation cost £4,000 - £14,000

Typical yearly saving £262

Potential rating after completing steps 1 to 3 **54 E**

---

## Step 4: Floor insulation (solid floor)

Typical installation cost £4,000 - £6,000

Typical yearly saving £91

Potential rating after completing steps 1 to 4 **59 D**

---

## Step 5: Hot water cylinder insulation

Increase hot water cylinder insulation

Typical installation cost £15 - £30

Typical yearly saving £32

Potential rating after completing steps 1 to 5 **61 D**

---

## Step 6: Hot water cylinder thermostat

Typical installation cost £200 - £400

---

---

Typical yearly saving	£58
-----------------------	-----

---

Potential rating after completing steps 1 to 6

64 D

---

## Step 7: Replace boiler with new condensing boiler

---

Typical installation cost	£2,200 - £3,000
---------------------------	-----------------

---

Typical yearly saving	£72
-----------------------	-----

---

Potential rating after completing steps 1 to 7

69 C

---

## Step 8: Solar water heating

---

Typical installation cost	£4,000 - £6,000
---------------------------	-----------------

---

Typical yearly saving	£42
-----------------------	-----

---

Potential rating after completing steps 1 to 8

71 C

---

## Step 9: Solar photovoltaic panels, 2.5 kWp

---

Typical installation cost	£3,500 - £5,500
---------------------------	-----------------

---

Typical yearly saving	£362
-----------------------	------

---

Potential rating after completing steps 1 to 9

81 B

---

## Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

---

Assessor's name	Michael Jones
Telephone	0151 214 1420
Email	<a href="mailto:epc@dualhi.co.uk">epc@dualhi.co.uk</a>

---

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/019550
Telephone	01455 883 250
Email	<a href="mailto:enquiries@elmhurstenergy.co.uk">enquiries@elmhurstenergy.co.uk</a>

## About this assessment

Assessor's declaration	No related party
Date of assessment	5 September 2022
Date of certificate	27 September 2022
Type of assessment	▶ <a href="#">RdSAP</a>

## Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at [duhc.digital-services@levellingup.gov.uk](mailto:duhc.digital-services@levellingup.gov.uk) or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

There are no related certificates for this property.
